ESG

Impact Lab:

From ESG Awareness to Measurable Organisational Impact

A premium executive ESG capability-building programme

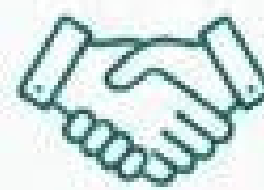

Programme Objectives

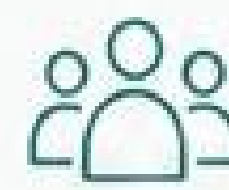

Build ESG awareness and fluency across key sustainability dimensions.

Equip participants to measure, manage, and report ESG performance.

Strengthen strategic decision-making and risk management through ESG integration.

Foster collaboration and leadership to drive sustainable value creation.

Learning Outcomes

By the end of the programme, participants will be able to:

Explain core ESG concepts, trends, and their business relevance.

Apply practical tools to assess and improve ESG performance.

Interpret ESG data and develop meaningful sustainability insights.

Align ESG strategies with organisational goals and stakeholder expectations.

Develop an actionable roadmap for ESG implementation and impact.

Frameworks Covered

Global Reporting Initiative (GRI)

SASB Standards

Task Force on Climate-related Financial Disclosures

UNEP Finance Initiative (UNEP FI)

Sustainable Development Goals (SDGs)

IFRS Sustainability Disclosure Standards (S1 & S2)
